**Verifying Benefits & ID Card Options**

You don't need an ID card to see a dentist or to make an appointment. Your dental provider can use the UT Group Number of your specific plan listed above along with your date of birth and verify your coverage over the phone directly with Delta Dental. **Remember to save the most money and maximize your benefits, always double check with Delta Dental that your dentist is "in-network" by calling Delta Dental and providing them with the name and address of your dentist. If you don't have a specific dentist in mind, Delta Dental can help you find one close to your home zip code that is in-network.**

ID card & Mobile App Information Listed Below:

- A. You can register with Delta online via: <https://www.deltadentalins.com/universityoftexas/>
  - Once registered, you can print a temp ID card
  
- B. After you register online, you could then download the Delta dental mobile app to have a digital ID card on your smartphone, view your benefits, search for an in-network dentist, and more:
